Peltier Element

Explained and Practical Demonstration of Peltier properties

Peltier Element, also known as Peltier Pump and Thermoelectric Cooler (TE module) is a small Electronic device that can be used to generate heat, cool down the temperature or can be used as Voltage Generator.

Please do come and enjoy the short lecture with Practical demonstration of the Peltier Properties.

Come see, hear and touch and you will be amazed with the "magical" properties of Peltier Element.

Also each Person will get summary of the presentation explained in writing for your own Reading.

After the Demo and explanation there will be 2 short movies viewed to see how the RF with antennas can be used in changing the weather Patterns around the Globe.

Presenter : Bato ZS6BAT

Venue: ZS6ERB (East Rand Radio Amateur Club) Ebenzer Rd Benoni

Date: 18 August 2018

Time: 14H00

Fee: Free of charge and everybody is welcome, Radio Amateurs or non Radio Amateurs
